Contrast Guidelines

WCAG 2.0 level AA requires a contrast ratio of at least 4.5:1 for normal text. Since larger and thicker fonts are easier to read, the ratio threshold for 18-point (typically 24px) and 14-point text (typically 18.66px) is lower at 3:1.

But Wait, There's More...

Using the "Shade" app in Canva, we can find varying shade selections for the selected LCMG Color Palette. Using any of these colors may improve contrast while remaining within the essence of the LCMG Brand Colors.
